

Company Overview

Bangladesh Steel Re-Rolling Mills (BSRM) is Bangladesh's leading steel manufacturer. BSRM Xtreme revolutionized Bangladesh's steel industry as the first graded steel, passing 5 million cyclic loading fatigue tests in the UK and conforming to 10 global standards. The company also developed Bangladesh's first 50mm rod for deep piling in the Padma Bridge.

Key infrastructure projects:

The major projects include:

- Padma Bridge
- Rooppur Nuclear Power Plant
- Hatirjheel Project
- Zillur Rahman Flyover
- Mayor Hanif Flyover
- Shah Amanat Bridge

Growth & Innovation Timeline:

1952: Inception

- Established as East Bengal's first steel re-rolling mill, marking BSRM's beginning.

1984-1987: Reinforcement Steel Advancements

- 1984: Introduced high-strength cold twisted steel bars (TORSTEEL).
- 1987: Launched High Strength Deformed Rebar (ASTM 615 Grade 60).

1996: Expansion in Billet Production

- Commissioned Bangladesh's largest billet-making plant, Meghna Engineering Works Ltd. (now Steel Melting Works, SMW).

2006-2008: Pioneering Steel Standards

- 2006: Developed micro reinforcement wires (<8mm) for rural construction.
- 2008: Launched internationally recognized Grade 500 steel bars (Xtreme500W), conforming to ISO 6935-2.

2010-2015: Major Industrial Developments

- 2010: BSRM Iron & Steel Co. Ltd. began as Bangladesh's largest billet-making plant.
- 2015:
 - Commissioned BSRM Steel Mills Ltd., the largest Induction Furnace-based billet plant.
 - Increased BSRM Steels Ltd. capacity from 600K MT → 700K MT/yr.
 - Expanded BSRM Re-Rolling Mills from 120K MT → 450K MT, making it Bangladesh's largest merchant mill.
 - Listed BSRM Re-Rolling Mills Ltd. on DSE & CSE stock exchanges.

2016-2018: Innovation & Growth

- 2016:
 - MS product sales exceeded 1M MT for the first time.
 - BSRM Steel Mills Ltd. began commercial production.
 - Launched BSRM Ultima & CENTURA (epoxy-coated rebar for corrosion resistance).
- 2017-2018:
 - Established state-of-the-art GI & LRPC wire plant.
 - Implemented Business Intelligence (BI) Analytics for data-driven decisions.

2019-2020: Advancing Steel Solutions

- 2019: BSRM Steels Ltd. commissioned its second melting unit (430K MT/year capacity).
- 2020:
 - Introduced Bangladesh's first customized steel solutions: "FastBuild" & "SecuRing".
 - Launched XTREME B500DWR (Grade B500DWR).

- BSRM Wires Ltd. began trial production of GI wire, LRPC wire, Welding Electrodes & CO₂ wire.

2021-2022: Wire Production Expansion

- BSRM Wires Ltd. started full-scale production of GI wire, LRPC wire, Welding Electrodes & CO₂ wire.

Next Steps: Future Expansion

- New bar & wire rolling unit in development.
- Expanding melting unit to increase:
 - Rolling capacity by 600K MT/yr.
 - Melting capacity by 250K MT/yr.

BSRM Wires Products

BSRM expanded its business by establishing a wire manufacturing unit, BSRM Wires, in Mirsharai, Chattogram. The facility has an annual production capacity of 65,000 tons. The plant features state-of-the-art facilities and testing labs to meet international standards.

Product line:

- Galvanized Wire
- ACSR Core Wire
- LRPC
- MIG Wire
- Welding Electrodes

BSRM Products

BSRM Product List:

BSRM has twelve types of products:

- BSRM Xtreme B500 DWR
- BSRM Xtreme B500 CWR
- BSRM Maxima (Grade 80)
- BSRM Ultima (Grade 60)
- BSRM Centura (Fusion Bonded Epoxy Coated Rebar)
- BSRM Xtrong (Angle & Channel)
- BSRM Square Bar (415 Graded)
- BSRM FastBuild: BBS & Cut & Bend
- BSRM FastBuild: BSRM SecuRing (Stirrups)
- BSRM FastBuild: BSRM Coupler
- BSRM FastBuild: BSRM Welded Wire Reinforcement (WWR)
- BSRM Slag Chips
- BSRM Wire Rod.

About the Products:

Product	Description
BSRM Xtreme B500 DWR	High-performance rebar (T/Y ratio 1.25), toughest steel in Bangladesh. Conforms to BDS ISO 6935-2:2016 & Fe 500S of IS 1786:2008. Ideal for landmark projects. Learn more at https://bsrm.com/bsrm-xtreme-dwr/
BSRM Xtreme B500 CWR	High-strength reinforcing steel (T/Y ratio 1.15) for buildings, bridges, RC frames. Conforms to

	BDS ISO 6935-2:2016 & BS4449:2009. Used in high-demand projects like Padma Bridge. Learn more at https://bsrm.com/xtreme-cwr/
BSRM Maxima (Grade 80)	Extra-strength steel for infrastructure (power plants, bridges, railroads). Yield Strength: 550 MPa, Tensile Strength: 690 MPa. Reduces congestion for better compaction. Learn more at https://bsrm.com/maxima/
BSRM Ultima (Grade 60)	Earthquake-resistant steel (T/Y ratio 1.25), meets ASTM A615 & BDS ISO 6935-2:2016. Preferred for SMRF structures in earthquake zones. Learn more at https://bsrm.com/ultima/
BSRM Centura (Fusion Bonded Epoxy Coated Rebar)	Corrosion-resistant rebar for coastal & saline environments. Conforms to ASTM A775/775 M-07b & BDS ISO 14654:2013. Ideal for power plants, sea ports, bridges. Learn more at https://bsrm.com/centura/
BSRM Xtrong (Angle & Channel)	High-strength structural steel (ASTM A572 Grade 50, BDS ISO 630-3-2012). 18-25% more economical than ASTM A-36. Used in factories, towers, truck bodies. Learn more at https://bsrm.com/xtrong/
BSRM Square Bar (415 Graded)	Quality billets, conforms to ISO 630-3-2012 SG415. Ideal for structural designs (grills, staircases, gates, furniture). Cost-efficient with uniform weight. Learn more at https://bsrm.com/square-bar/
BSRM FastBuild: BBS & Cut & Bend	BBS provides rebar shapes, lengths & bending details. Cut & Bend service ensures precise fitting, reducing waste. Conforms to BNBC & ACI Codes. Learn more at https://bsrm.com/bbs-and-cut-bend/
BSRM FastBuild: BSRM SecuRing (Stirrups)	High-quality stirrups made with European technology, compliant with BNBC & ACI standards. Ensures structural safety & durability. Learn more at https://bsrm.com/stirrups-bsrm-securing/
BSRM FastBuild: BSRM Coupler	High-strength mechanical couplers (by Dextra Group) solving rebar congestion issues in conventional construction. Enhances structural integrity. Learn more at https://bsrm.com/coupler/
BSRM FastBuild: BSRM Welded Wire Reinforcement (WWR)	Bangladesh's first WWR solution using European technology. Saves time & reduces material wastage in slabs & pavements.

	Learn more at https://bsrm.com/wwr/
BSRM Slag Chips	Eco-friendly alternative to brick chips, providing similar strength while reducing pollution & topsoil depletion. Cost-effective & quality-consistent. Learn more at https://bsrm.com/bsrm-slag/
BSRM Wire Rod	Produced using advanced no twist block mills at 110m/s rolling speed. Certified for ISO 14001 & ISO 45001. High-strength & durability for diverse applications. Learn more at https://bsrm.com/bsrm-wire-rod/ Order Online at: https://bsrm.com/order-online/
